

# Headlands to Creek - Postcard Vision

Gava Walk Barcelona 1992 Imma Jansana  
Konemann 2000

Tom Watkins was the "anti-highrise" councillor in response to Caprice being built. He served two terms and joined Fred Murray's "Progress 85" team in his second term.

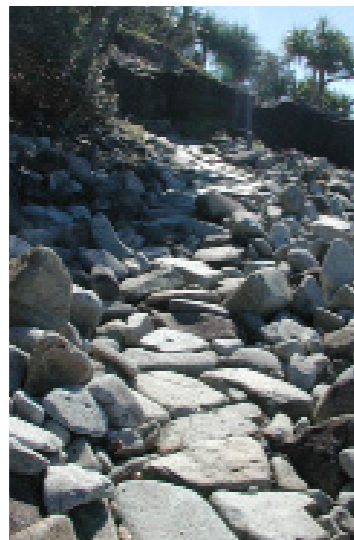

## Project

### 11.4 The Tom Watkins Garden Walk.

There is great opportunity to enhance the walking path on the eastern side of David Low way where pedestrian are not impeded by road crossings and can view the main street through the shaded tree canopy created in memory of Tom Watkins.

It is suggested if the Public Caravan Park's western fence was shifted approximately one metre east and reinvented as a soft scape barrier, the opportunity to appreciate a beautiful landscaped pedestrian and cyclist corridor along the main street of Coolum would be created. The de-maining of David Low Way in the future will enhance this pathway and provide further opportunity to access it.

This project would provide Artist opportunity in creatively challenging the perception of gated community and landscape lighting. The story of Tom Watkins can be told.
